

Lessons Learned for Process Implementation and Benchmarking

Facilitator: Paul Croll, CSC
Co-Chair Processes and Practices Working Group

March 10, 2010

- **Goals**
 - Capture and discuss software assurance issues
 - Share best practices
 - Provide community input to and comments on:
 - DHS and DoD guidebooks relating to software assurance
 - National and international software assurance standards
 - DHS and DoD policy guidance on system and software assurance
- **Collaborative Partners**
 - SAFECODE, NDIA, SEI, DACS, OWASP, Others
- **Next Steps**
 - Collaborate with SwA stakeholders; effectively leverage People and Technology to exceed the SwA expectations of Acquirers and End Users
 - Collaborate with Measurement community to gain an understanding of practices implementation and effectiveness
 - Address the Organizational implementation of Software Assurance practices

- ***Chris Fagan, Microsoft Corporation:***
 - Senior Director, Software Integrity Initiative
 - Discussion lead on software aspects of supply chain and what Microsoft has learned
- ***Brian Chess, Fortify:***
 - Chief Scientist
 - Discussion lead for how tools play into the lifecycle and BSIMM
- ***Michele Moss, Booz Allen Hamilton:***
 - Co-Chair's the DHS Software Assurance Working Group on Processes & Practices
 - Led the creation of the Assurance PRM for CMMI and has been working with the SwA community to find viable ways to benchmark SwA practices.
 - Discussion lead for integrating security processes and practices into project lifecycles
